**Subject:** LCDM Remedial Design AOC & SOW

Carl and Brendan,

EPA has modified the 9-30-2020 drafts of the Ley Creek Deferred Media remedial design AOC and SOW based on the feedback from RACER. Please find the revised drafts (both clean and redline versions) attached to this email. Note that EPA has added a few comments in the margins, certain of which request further information from RACER. After you have had a chance to review these documents, please let us know your availability for a conference call in the coming weeks to resolve any final issues. Certainly feel free to contact me with any questions relating to the drafts. Questions of a technical nature may be directed to Victoria.

Thank you,  
Margo
